

MANUAL ACCESARE ADRESA EMAIL DE SERVICIU

Se deschide un browser folosit pentru navigarea pe internet (Chrome, Firefox, Edge, Opera etc). In partea de sus a browserului avem motorul de cautare folosit pentru navigare pe internet (google, bing etc).

Se da click si se sterge adresa motorului de cautare :

Dupa ce s-a sters motorul de cautare se scrie : **spitalcfiasi.ro/webmail** si se apasa tasta Enter:

Google

Căutare Google Simt că am noroc

Google oferit în: magyar Deutsch

Confidențialitate Termeni Setări

Dupa ce s-a apasat tasta Enter va apareea in partea de sus adresa : <https://spitalcfiasi.ro:2096/> iar pe mijlocul paginii campurile libere unde trebuie sa introduceti adresa de email si parola.

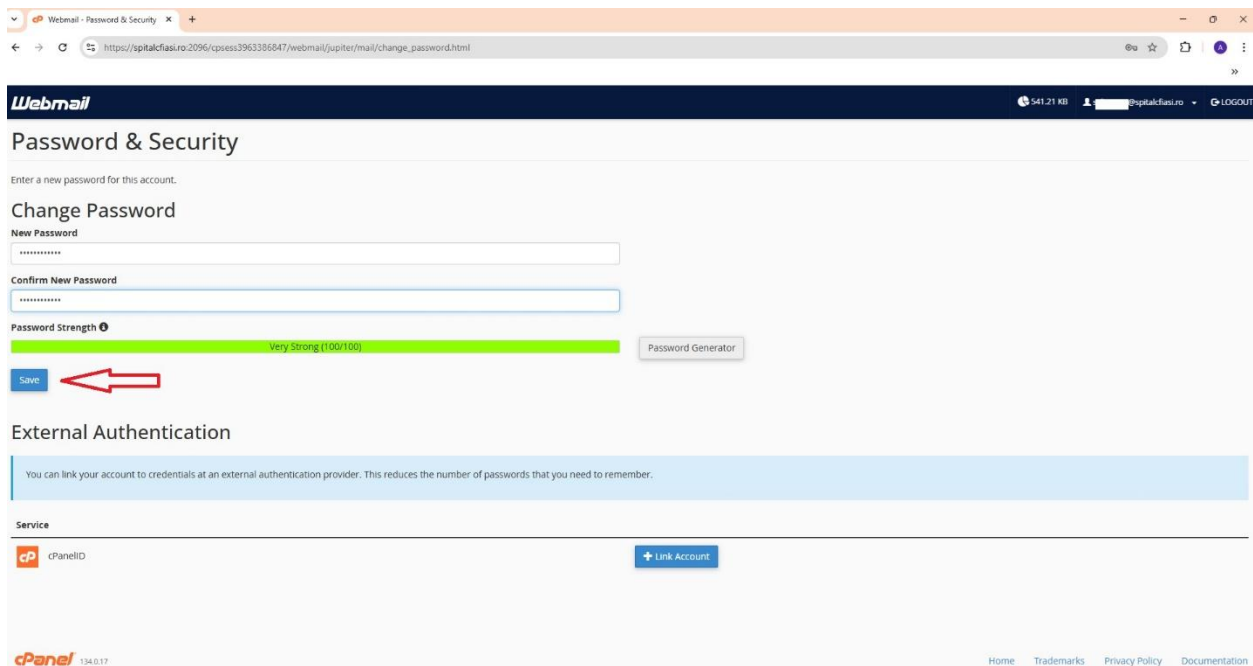

Dupa ce ati introdus datele solicitate, se da click pe butonul conectare si se va deschide urmatoarea pagina:

Prima data se va schimba parola primita, din motive de siguranta. Se da click pe : Password & Security (in partea stanga din josul paginii) :

Se va scrie parola noua in prima rubrica si se va confirma in cea de-a doua iar apoi se va da click pe butonul Save :

Daca schimbarea parolei a fost efectuata cu succes , se va vedea urmatorul mesaj :

Webmail

Password & Security

Enter a new password for this account.

Change Password

Success: You successfully changed your password.

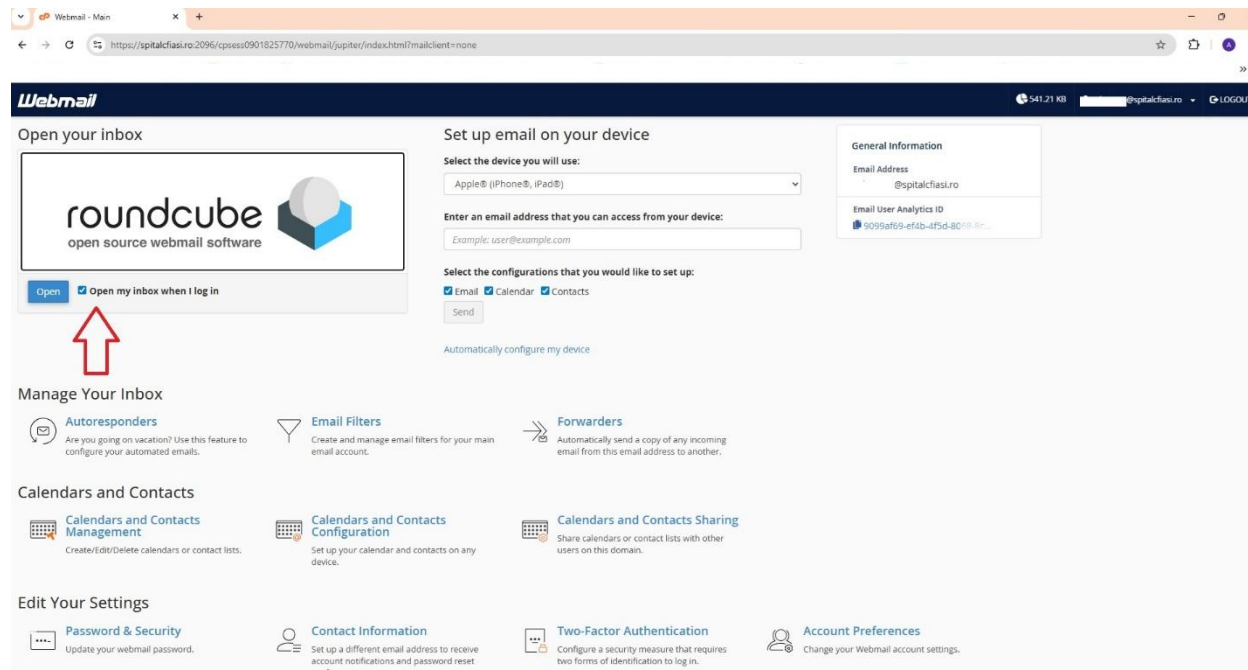

New Password

In cazul in care apare eroare, probabil nu ati scris aceeasi parola in campul confirmare si trebuie repetata procedura.

Daca procedura a fost efectuata cu succes, se da click pe butonul Webmail din partea de sus a paginii pentru a ne intoarce la pagina principala :

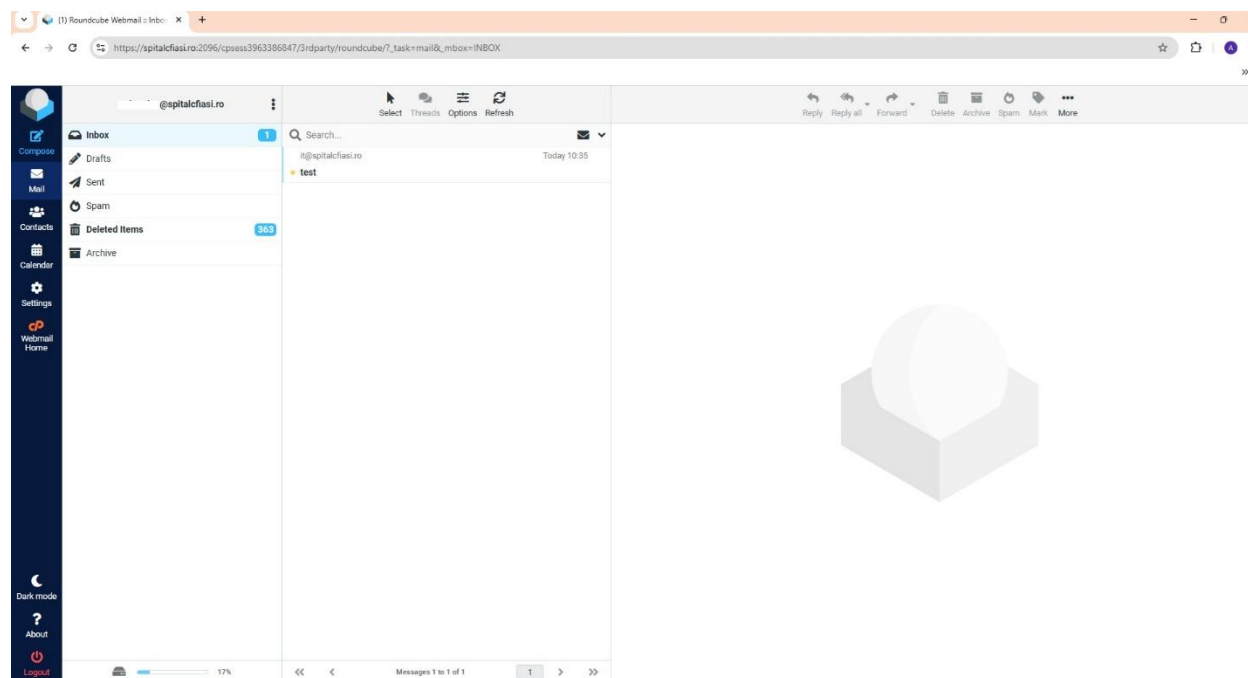

The screenshot shows a web browser window with the URL https://spitalcliasi.ro/2095/cpsess3963386047/webmail/jupiter/mail/change_password.html. The page header features the **Webmail** logo on the left and user information (541.21 KB, @spitalcliasi.ro, LOGOUT) on the right. The main content area is titled "Password & Security" and includes a success message: "Success: You successfully changed your password." Below this, there are input fields for "New Password" and "Confirm New Password", a "Password Strength" indicator showing "Very Strong (100/100)", and a "Password Generator" button. A "Save" button is located at the bottom of the form. The "External Authentication" section is partially visible at the bottom, showing a "Service" table with a "cPanelID" entry and a "+ Link Account" button. A red arrow points to the "Webmail" logo in the top left corner of the page.

Dupa ce am ajuns la pagina principala, vom bifa casuta : **Open my inbox when I log in si se da click pe Open**. Aceasta operatiune se face doar la prima accesare a adresei de email Odata ce am bifat casuta respectiva, sistemul va deschide automat casuta de email la urmatoare accesare :

The screenshot shows the Roundcube Webmail interface. The main heading is "Open your inbox" with the Roundcube logo. Below the logo is a button labeled "Open" and a checked checkbox "Open my inbox when I log in". A red arrow points to this checkbox. To the right, there are sections for "Set up email on your device" and "General information". Below these are sections for "Manage Your Inbox" (Autoresponders, Email Filters, Forwarders), "Calendars and Contacts" (Management, Configuration, Sharing), and "Edit Your Settings" (Password & Security, Contact Information, Two-Factor Authentication, Account Preferences).

Dupa ce se da click pe Open, adresa de email se va deschide si se va putea folosi.

The screenshot shows the Roundcube Webmail inbox page. The inbox is empty, showing a large watermark logo. The left sidebar contains navigation options like Compose, Drafts, Sent, Spam, Deleted Items, and Archive. The top bar shows search and action options.
